## CELEBRATING CREATIVITY: INDIAN MASTERS

India is a land of diverse cultures and Indian art depicts this syncretic ethos. The Mughal paintings, the exquisite murals of Ajanta and Ellora, Buddhist palm leaf manuscripts, all bear testimony to the richness and originality of Indian art.

Art in India embodies the social and political changes that have transformed the region through history. One of the most interesting periods in the evolution of Indian art was the colonial period, which saw the blending of the traditional and the contemporary forms of art giving birth to modern Indian art.

Our calendar 2020 pays homage to some of the great Indian masters, who successfully pushed conceptual thresholds and drew admiration from art lovers around the world. The paintings hold within themselves a story; every brush stroke and each drop of colour used is a word written on canvas. The works of these chosen artists have attained great significance for their unique Indian aesthetic, leaving behind a legacy that establishes their rightful place in the history of arts.

These paintings are a part of Biocon's art collection.
